

Glendale, Utah.
April 18, 1934.

Mr. T. H. Humpheries, State Engineer,
Salt Lake City, Utah.

Dear Sir:

This is to advise you that we the undersigned representatives of the Mount Carmel Irrigation Co., the Orderville Irrigation Co., and the Glendale Irrigation Company have held a meeting on this 18 day of April 1934, here in Glendale, Utah which was atended by other interested stockholders and water users, for the purpose of recommending someone for appointment as Water Commissioner for the season of 1934 in this the Long Valley district.

We have all agreed to recommend the appointment of Walter S. Carpenter of Glendale, Utah, for this position. This seems to be agreeable to him even though he has not yet recieved all that was justly comming to him for his services last year, oweing to the difficulty of collecting from delinquent water users.

In the matter of compensation we have agreed with Mr. Carpenter to allow him 50¢ per hour for the time he puts in at measuring and adjusting the water and other work necessary to his office. We have also estimated that about \$90.00 will be required this year to give adequate pay for this work.

Yours very truly,

Carl J. Sorenson
President of Mt. Carmel Irrigation Company.

Conrad De Mill
President of Orderville Irrigation Company.

Marcellus Johnson
President of Glendale Irrigation Company.
